

ABOUT OUR SCHOOL

Purpose

It is the purpose of Happyland Day School to provide a quality, Christian environment for the children of this community. We value the families of the school and work to maintain a strong relationship with all family members. Through creativity and individualized learning, Happyland provides a nurturing environment with programs of educational activities, social development, and personal growth as a basis for future success.

The school is governed by the Happyland Board of Directors and is responsible to the Session of the First Presbyterian Church of Fort Lauderdale. Corey Thiel is the Principal of Happyland Day School and Steve Wofford is the Church Business Administrator.

Accreditation

Happyland is licensed by the Florida Department of Children & Families and the Board of County Commissioners of Broward County and is an 8 time recipient of their Gold Seal Award. Our school boasts a tradition of over seventy years of excellence in preschool education and child care.

Programs

Happyland encompasses programs for children ages 22 months through Kindergarten.

PLEASE NOTE: Children must have reached the appropriate age for their class by September 1st of the year of enrollment.

TUESDAY/THURSDAY TWO YEAR OLD CLASS: This class is available for children who are 22 months of age by September 1st of the year of enrollment. Close supervision and loving care are provided in a structured environment and the class is developmentally appropriate for each child.

PRE K-2: We offer a five-day class and a three-day class (Monday/Wednesday/Friday) to children who will be 24 months by September 1st. These structured classes provide social interaction and an introduction to the classroom experience.

PRE K-3: We offer a 3 day and a 5 day program. This program encompasses a curriculum that encourages social interaction while still meeting the benchmarks necessary to successfully move on to our four year old program. It provides many activities for students to practice intellectual skills and to feel successful and self-confident while developing positive social interaction.

PRE K-4: This program provides a positive climate for further concentration of math and reading skills as well as a continuing development of listening and social skills. The curriculum has a strong phonics foundation, an introduction to writing through journaling, and a hands on math program that includes technology.

KINDERGARTEN (AGE 5): Kindergarten is special time where curriculum encourages independent thinking while continuing to develop reading and math skills through hands on learning. Children continue to build strong phonics skills that help ensure a solid foundation for reading success. Writing becomes an integral part of each day and a way for students to express feelings and creativity. Math is an important part of each day with morning meetings and hands-on center activities.

Extracurricular Programs: Programs such as Science, Music, and Physical Education are incorporated each week by teachers with special training in each subject area. These programs add excitement to the day and encourage the development of a well-balanced child.

Extended Day Program: Happyland offers an extension to the day in the morning and afternoon for an additional fee. We are open from 7:30 AM-5:30 PM.

MEDICAL RELEASE

I grant permission for my child to use all of the play equipment and participate in all activities of the center. I give Happyland Day School authorization to seek emergency medical treatment for my child. Happyland Day School will arrange emergency transportation to the nearest medical facility if necessary. Due to safety regulations, injured or ill children must be transported to a hospital by paramedics or ambulance. They cannot be transported by school personnel. I give any health facility or physician permission to provide medical treatment for my child as necessary in an emergency situation that may arise at Happyland Day School. I also authorize Happyland Day School to have my child released into the custody of its representative, should hospital care no longer be required. This release is to be used only in case of emergencies.

I will take full responsibility for payment of all medical services, including transportation, tests, and any fees involved with medical care received, which might be rendered due to any emergency situation that may arise at Happyland Day School.

ENRICHMENT CLASSES

DESCRIPTION

Ballet: (Ages 2 and up) Our preschool dance program lays the groundwork for future dance study across a variety of genres by working on prerequisite skills and concepts. A love of dance is fostered through a creative and age-appropriate approach to instruction.

Creative Minds: (Pre K and K) Creative Minds incorporates arts, crafts, cooking and more. This class fosters creative development while encouraging imagination, self-expression, and social interaction. This program is taught by Susan Kennedy, who is one of the Happyland teachers, on either Tuesday and Thursday afternoons or Monday and Wednesday afternoons.

Drama: (Pre K and K) Utilizing creative play, students explore the range of their imaginations through theatre games, music, movement, and children's literature. It nourishes the development of self-confidence, problem-solving skills, and working together with a team.

Fun and Fitness: (Ages 2 and up) In this class, students learn skills, drills, relays, and soccer! This program is taught by Terri Wilson, who is trained in Early Childhood Physical Education. It is a fun introduction to rudimentary sports instruction and encourages team activities, sportsmanship, and exercise.

Hip Hop: (Ages 2 and up) This is the perfect class for kids who just love to dance! Student will move, groove, and have fun while developing a love for the Arts.

Beakers and Bugs: (Pre K and K) This class offers a hands-on learning experience that fosters a love of Science with experiments, hands on activities, and art. Through age appropriate labs students learn that they can be a scientists too!

S.T.E.M. Workshop: (Pre K and K) Building a solid foundation of Science, Technology, Engineering, and Mathematics, this class will include building, gardening, mathematics games, and an introduction to computer coding for kids! Students will have a blast and won't realize that all the fun is actually full of learning important concepts for future success!
